A New Year Resolution

Resolve that during the year of 1907 you will deposit your income in the bank and pay all bills by check.

At the end of the year, or at any future time, you can refer to your bank and check book, see just what your income was, the amount of your expenditures, what they were for, and you will have a receipt for all payments made.

Just try this plan for a year. We do not think you will want to go back to the old haphazard and risky plan of carrying your money in your pocket and paying bills with cash. No chance of an error in making change; no chance of being robbed and an absolute record of every transaction.
